

**Biology 3**  
0710

**GENERAL CERTIFICATE OF EDUCATION (GCE) BOARD**

General Certificate of Education Examination

**JUNE 2021**

**ADVANCED LEVEL**

Subject Title	<b>Biology</b>
Paper No.	<b>Paper 3- Practical</b>
Subject Code No.	<b>0710</b>

STRICTLY CONFIDENTIAL.  
For the Centre Supervisor.

**GROUP IV**

Centre No: .....

---

**Questionnaire for Centre Supervisor**

**Please note:**

**One copy of this form must be completed for each group of candidates and attached to the scripts to which it refers.**

*The Centre Supervisor is specifically requested to examine the dissection in order to complete the inquiries listed under question 3.*

*The final grade of each candidate's practical note-book(s) from the individual SBA form should be written on the front page of each candidate's script after the examination. The individual SBA form should be inserted into each candidate's booklet. For further guidance, please see the Duties of the Center Supervisor.*

1. State the specimens and the nature of each of the specimens in the table below:

<b>SPECIMENS</b>	<b>NATURE OF SPECIMEN</b>
A	
B	
C	
D	
E	
F	
G	
H	

Give details of any particular abnormality with specimen(s) provided.

- 
3. Give full details of the fish provided for dissection. Include any special difficulties experienced with regard to the conditions of the specimen prior to dissection.

The assessment of dissection by centre supervisor

After the examination, the Centre Supervisor will assess each candidate's dissection according to the following scheme:

(a) Dissection Quality:

Good	=	Neat cut of the perivisceral wall or neat urinogenital cut	All organs required clearly displayed in order and visible
Average	=	Neat cut of the perivisceral wall or neat urinogenital cut	One or two organs required not displayed in order or not visible
Poor	=	Rough cut of perivisceral wall or no urinogenital cut	Most organs required not displayed in order or visible
Very poor	=	Very rough cut of perivisceral wall or no urinogenital cut	Organs required not displayed or visible
<b><i>Not applicable</i></b>	=	<b><i>Extensive damage to animal</i></b>	<b><i>No attempt to dissect animal</i></b>

(b) Drawing Accuracy:

**Accurate:** Drawing is true replica of dissection (even when very poor)

**Fairly accurate :** Drawing is close to dissection.

**Inaccurate:** Drawing is not representative of dissection.

**The assessment must be clearly written in the answer booklet of each candidate by the drawing of the dissection.**

- 
4. Give full details of the specimens or apparatus provided, where these differ from those listed in the Group Instructions.

**The Centre Supervisor should give a full report of his/her own experiment.**
