

GENERAL CERTIFICATE OF EDUCATION BOARD

General Certificate of Education Examination

JUNE 2022

ADVANCED LEVEL

Subject Title	Biology
Paper No.	3- Practical
Subject Code No.	0710

STRICTLY CONFIDENTIAL

For the Centre Supervisor

GROUP III

Centre No:

Questionnaire for Centre Supervisor

Please note:

One copy of this form must be completed for each group of candidates and attached to the scripts to which it refers.

The Centre Supervisor is specifically requested to examine the dissection in order to complete the inquiries listed under question 3.

The grade of each candidate's practical note-book(s) should be written on the front page of each candidate's script after the examination. For guidance, please see the General Instructions.

Turn Over

1. State the specimens and the nature of each of the specimens in the table below:

SPECIMENS	NATURE OF SPECIMEN
A	
B	
C	
D	
E	
F	
G	
H	

Give details of any particular abnormality with specimen(s) provided.

-
3. Give full details of the fish provided for dissection. Include any special difficulties experienced with regard to the conditions of the specimen prior to dissection.

The assessment of dissection by centre supervisor.

After the examination, the Centre Supervisor will assess each candidate's dissection according to the following scheme:

(a) Dissection Quality:

Dissection Quality:			
Good	=	Neat cut of the perivisceral wall or neat urinogenital cut	All organs required clearly displayed in order and visible
Average	=	Neat cut of the perivisceral wall or neat urinogenital cut	One or two organs required not displayed in order or not visible
Poor	=	Rough cut of perivisceral wall or no urinogenital cut	Most organs required not displayed in order or visible
Very poor	=	Very rough cut of perivisceral wall or no urinogenital cut	Organs required not displayed or visible
<i>Not applicable</i>	=	<i>Extensive damage to animal</i>	<i>No attempt to dissect animal</i>

(b) Drawing Accuracy:

Accurate: Drawing is true replica of dissection (even when very poor)

Fairly accurate : Drawing is close to dissection.

Inaccurate: Drawing is not representative of dissection.

The assessment must be clearly written in the answer booklet of each candidate by the drawing of the dissection.

4. Give full details of the specimens or apparatus provided, where these differ from those listed in the Group Instructions.

The Centre Supervisor should give a full report of his/her own experiment.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
